DETAILED ACTION

Remarks

This action is in response to an amendment and terminal disclaimer received 2/2/2005, which have been placed in the electronic file wrapper.

The examiner thanks the applicant for astutely observing that co-pending applicant 10/788,600, which the examiner referred to in initial comments, was the intended reference to be used in the double patenting rejection.

Rejection under 35 USC 112 of claims 1-10 is hereby withdrawn in view of applicant's amendment to claim 1.

Rejection based on double patenting with 10/788,600 is withdrawn because the applicant has filed a terminal disclaimer.

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art record evaluated by the examiner fails to teach or properly suggest a smart card conforming partly to a smart card standard in the manner claimed, having built into it

Art Unit: 2876

another connector protruding from the card, this connector conforming to a different standard in addition to a smart card standard that the card complies with.

The nearest prior art of record discovered by the examiner is Pua et al. (US 2002/0147882 A1) which teaches a memory card having a built-in USB connector. Pua et al. lacks conformity to the shape/dimensions recited and would not be easily modified to have conformity to such dimensions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
